Carbon Offset
BIRD PROJECT

Meadowbrook Marsh Carbon Offset Bird Project

The funds generated from this project will be used to purchase additional wetlands for Meadowbrook Marsh.

This is a joint project of the Ohio Ornithological Society and the Midwest Birding Symposium.

Please complete this mini questionnaire for future Carbon Offset Bird Projects:

- Would you like to see the COBP promoted at other birding events?
  ☐ *Yes* ☐ *No*
- Is this a project you would support? (Please write comments on back)
  ☐ *Yes* ☐ *No*
- Is voluntary participation an advantage?
  ☐ *Yes* ☐ *No*
- What other COBP habitat recipient should we consider?
  ☐ *Wetland* ☐ *Grassland* ☐ *Forest* ☐ *Latin America/Caribbean*

Yes, I would like to offset my carbon footprint.

Roundtrip to Midwest Birding Symposium:
(carbon offset calculated by $20 per ton)

☐ **$5** ..... **Low** - Car Travel (under 600 miles)

☐ **$10** ..... **Moderate** - Car Travel (over 600 miles)

☐ **$25** ..... **High** - Air Travel and Car

CO_2 offset for all birding trips Sept - Dec 2011:

☐ **$50** ☐ **$100** ☐ **$150** ☐ **$200**

OR: $_____ carbon offset as calculated with the COBP Table.
(Volunteers are ready to help you calculate your offset)

My donation to conserve bird habitat at Meadowbrook Marsh $_____

The average person in the U.S. generates 27 tons of carbon emissions yearly.
