**Breeding Evidence Codes and Criteria**

**Observed**
- **X** heard or seen **within safe dates**, but **NOT** in suitable breeding habitat

**Possible**
- **OS** heard or seen **within safe dates** and in suitable breeding habitat

**Probable**
- **PO** mated pair seen **within safe dates** and in suitable breeding habitat
- **T1** territorial behavior (counter singing, territorial singing, woodpecker drumming, male-male chases, etc)
- **T7** singing male at same location 7 or more days apart
- **AB** agitated behavior and/or anxiety calls from an adult
- **CC** courtship displays or copulation
- **VS** visiting probable nest site, or nest building by wrens, woodpeckers, kingfisher, chickadees, titmice

**Confirmed**
- **UN** used nest (inactive nests; must be readily identifiable)
- **CM** adult carrying material for nest (nest not seen)
- **NB** nest building observed (nest seen)
- **DD** distraction display/behavior; broken wing display or dive-bombing humans
- **PE** gravid condition or highly vascularized brood patch (bird banders only)
- **CF** adult carrying food or fecal sac
- **ON** occupied nest; nest attended by adult(s), but contents not visible
- **NE** nest with eggs
- **NY** nest with nestlings
- **FY** recently fledged young, incapable of sustained flight

*Important: see Atlas Handbook for description
